■ Quick info

Shrimp King Complete contains all the essential nutrients and substances for growth that shrimps need every day. High-quality proteins and essential amino acids from aquatic animals ensure balanced growth. Dietary fibre from various leaves and bark supports healthy digestion.

Vitamins and vital substances from different types of algae and vegetables act as "lubricants" for a functioning metabolism. β -glucan from yeasts supports the body's own defences. Natural carotinoids promote the full development of species-specific colouring. The wide range of ingredients means each individual food sticks already contains a varied diet. Shrimp food made in Germany.
